MOTION DESIGNER

JACOB SULLIVAN

CONTACT

- Jacob.hksullivan@gmail.com
- Sydney, Australia
- Full Australian & British citizen
- jacob-sullivan-portfolio.vercel.app

SKILLS

- Visual storytelling
- Creative direction
- Motion guidelines & brand systems
- 3D animation & rendering
- Video editing
- AI prompting
- AI-assisted production workflows

SOFTWARE & TOOLS

- Adobe After Effects
- Cinema 4D & Redshift
- Blender
- Adobe Illustrator
- Adobe Premiere Pro
- Adobe Photoshop
- Rive
- AI: ChatGPT, Claude, Higgsfield, Claude Code (Blender & After Effects MCPs)

OBJECTIVE

Articulate and passionate motion designer and visual storyteller with 7 years' experience in animation and video production working with high profile brands. Proficient in Cinema 4D and Redshift, creating production quality 3D animation and renders. Proactive self-starter, driven to learn and develop with first-hand experience within the industry.

Highly capable in AI, with strong everyday use of both ChatGPT and Claude, particularly for prompt writing, and experience using Claude Code alongside Blender and After Effects to speed up productivity. Looking to progress towards a Creative Director role.

EXPERIENCE

MOTION DESIGNER

Fuel. Sydney | Aug 2025 – Present

I am the only animator at a marketing agency, responsible for motion design across client work from concept through to final delivery. I also help the wider team to understand animation and how to work with it. I have strong capabilities in both ChatGPT and Claude, using them every day for general tasks and, most importantly, for prompt writing, which speeds up my productivity.

Key Achievements

- Produced a Jim Beam out-of-home rollout, built in Cinema 4D and rendered in Redshift, featuring 3D cans on textured concrete pillars with custom lighting and motion blur. Delivered in four aspect sizes and in 6s, 7s and 10s versions, 12 deliverables in total.
- Reworked a Suntory Oceania hype reel for Japanese spirits into a narrative-based piece, using voice-over to reduce on-screen copy and a depth camera with wave layers to move the viewer through the story.
- Created the Canadian Club motion guidelines, defining how animation is used across social media videos, digital banners, hype reels and logo animation.
- Designed an internal animation workshop for the client services team, covering timing, spacing and easing, to help them interpret client feedback and reduce revision rounds.
- Animated a set of storyboards for Taldumande Youth Services into a slow, emotional piece with voice-over and music, using a ball as the emotional motif, built in After Effects with an After Effects MCP.
- Wrote detailed prompts for scripts, briefs, voice-over copy and research to develop creative ideas quickly and to a high standard.
- Generated 3D model blueprints with AI, used as reference for modelling in Cinema 4D and Blender.

- Used the Claude Code function alongside Blender and After Effects MCPs to automate repetitive set-up and build tasks, speeding up production.

FREELANCE MOTION DESIGNER & CREATIVE DIRECTOR

Dan Biggar. [START DATE] – Present

I work freelance for Dan Biggar, co-host of The Rugby Pod, which is billed as the most listened to rugby podcast in the world, animating his content and providing creative direction.

Key Achievements

- Animated rugby tactics analysis content and provided creative direction throughout.
- Created YouTube Shorts for Dan Biggar.
- Scoped, priced and delivered the work independently, from brief through to final export.

MOTION DESIGNER

Genius Sports. Soho, London | Jul 2023 – Aug 2025

I played a key role in driving creative initiatives across the business, collaborating with major partners like the NFL and Premier League to enhance campaign visibility and awareness. I led campaigns focused on product demos, brand awareness and sizzle reels, managing a team of motion designers and working closely with the marketing team. I also helped shape Genius Sports' evolving brand identity, creating motion design guidelines, establishing creative language and overseeing all video content published by the company.

Key Achievements

- Produced a catalogue of promotional video content that played a key role in securing a multi-million-pound SAOT agreement between Genius Sports and the Premier League, as well as cup competitions.
- Directed the creative vision for 3D renders and animated a sizzle reel, which played a pivotal role in defining our new brand identity for a specific sector of the business.
- Led the animation for large screens during an important event, utilising a blend of 3D and 2D animations.
- Led the creation, design and production of animation and video content for in-house campaigns, driving awareness and enhancing recognition within the organisation.
- Self-taught 3D modelling and animation, which I introduced to the business to elevate the quality and impact of the content we produced.

CONTENT CREATOR & VIDEO EDITOR

Firebird Events. Farnborough, Surrey | May 2021 – Jul 2023

- Directed, filmed and edited conferences and events across the UK and Europe for luxury brands including Prada, Samsung, Yves Saint Laurent and L'Oréal, adding 2D motion graphics in post-production.
- Filmed and directed a keynote conference in Geneva for the Pictet Board of Directors, live streamed to over 3,000 viewers.
- Directed 2 onsite editors and over 7 camera operators at Pictet's yearly conference at the Savoy, London, editing the film onsite against a tight deadline.
- Created a fully bespoke game show for Animal Friends to drive internal engagement.

VIDEO EDITOR

Freelance. | Jun 2020 – May 2021

- Produced social media videos for local businesses including Hi Speed UK & International and Paul Marcus Media, plus pro bono work for the charity CMPP.
- Created a fully animated promo reel for music business GrooveGate, reaching over 3,800 views.

DIGITAL MARKETING EXECUTIVE

Hoppa. Woking, Surrey | Sep 2019 – Jun 2020

- Produced video content for YouTube, Instagram and Facebook for an ecommerce travel company, alongside daily SEO checks.
- Pitched a new video marketing channel to the CEO, which was approved before COVID-19 halted projects.

EDUCATION & TRAINING

Master Motion Design. Ben Marriott | Feb 2026 – Mar 2026

Design Bootcamp. School of Motion | Jan 2023 – Feb 2023

Animation Bootcamp. School of Motion | Oct 2022 – Dec 2022

A Levels. Farnborough Sixth Form, Farnborough

HOBBIES

I have a strong passion for spearfishing and surfing. Spearfishing allows me to stay calm in stressful situations as well as switch off from the world while hunting sustainably. Surfing is a big part of my week, getting in the water around three times a week at Manly, and it has taught me patience and persistence as I continue to progress. I'm also a keen ocean swimmer, currently training for the 2.4km Coogee Island Challenge, and I enjoy skiing. I'm an avid football fan, supporting Manchester United, and I enjoy watching rugby, a sport I played for many years.
